INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of the general schedule for population is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 9-1000) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this special Indian schedule as members of the Indian families in which they are found. In other words, every family composed mainly of Indians should be reported entirely on this special schedule, and every family composed mainly of persons not Indians should be reported entirely on the general population schedule.

Space is provided for entries for 20 persons on each side (A and B) of the sheet, the entries for each person running twice to the page. Columns 1 to 26 are to be filled for each individual case, if applicable, according to the instructions.

Column 1 to 26.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding column in the general population schedule (see book of instructions), but note the following additional instructions in relation to filling columns 1 and 2, column 7, and columns 18 and 19.

Column 1 and 2. *Vitalization numbers*.—If, in covering a given territory, you are using both the general population schedule (Form 9-1000) and this schedule for Indian population, make two independent series of numbers for these columns, one series in each kind of schedule, so that the last number in column 1 on this schedule added to the last number in column 1 on the general population schedule will give the whole number of dwellings visited, and, likewise, the last number in column 2 on this schedule added to the last number in column 2 on the general population schedule will give the whole number of families visited and enumerated in your entire district.

Column 7. *Age at last birthday*.—Some difficulty may be met in ascertaining the exact age of Indians, as they frequently reduce their ages from notable events occurring in the history of the respective tribes. Endeavor to ascertain the year in which these notable events occurred, and with a little calculation on your part you should be able to ascertain the exact age of each Indian.

Columns 18 and 19. *Occupation*.—If the Indian is wholly self-supporting, enter his or her occupation in columns 18 and 19 in accordance with the general instructions for returning occupations. If the Indian—adult, woman, or child—has no occupation and is wholly dependent on the Government for support, write "Indian Indian" in column 18. If the Indian is partly self-supporting and partly dependent upon the Government, write the occupation in columns 18 and 19, and then the letter "R" (for Indian).

INSTRUCTIONS FOR FILLING THIS SCHEDULE. CONTINUED FROM "A" SIDE OF SHEET.

The following instructions apply to columns 23 to 44:

Columns 23, 24, and 25. Tribal relations.—If the Indian was born in this country answers should be obtained, if possible, to inquiries 12, 13, and 14, relating to the state or territory of birth of the person and of his or her parents. In any event, take particular pains to secure the name of the tribe with which the person is connected, and the name of the tribe of each of his or her parents, and enter the name in columns 23, 24, and 25.

Columns 26, 27, and 28. Proportions of Indian and other blood.—If the Indian is a full-blood, write "full" in column 26, and leave columns 27 and 28 blank. If the Indian is of mixed blood, write in column 26, 27, and 28 the fractions which show the proportions of Indian and other blood, as (column 26, Indian) $\frac{1}{2}$ (column 27, white) $\frac{1}{2}$ and (column 28, negro) $\frac{1}{4}$. For Indians of mixed blood all three columns should be filled, and the sum, in each case, should equal 1, as $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{4}$; $\frac{3}{4}$, $\frac{1}{8}$, $\frac{1}{8}$; etc.

Whenever possible, the statement that an Indian is of full blood should be verified by inquiry of the other men of the tribe, as an Indian is sometimes of mixed blood without knowing it.

Column 29. Number of times married.—If the Indian is married, enter in this column the number of times he or she has been married.

Column 30. Whether now living in polygamy.—If the Indian man is living with more than one wife, with "Yes" in this column; otherwise, write "No."

Column 31. If living in polygamy, whether the wives are sisters.—If the Indian man is living with more than one wife, and if his wives are sisters, write "Yes" in this column. If his wives are not sisters, write "No."

Column 32. Graduated from what educational institution.—If the Indian is a graduate of any educational institution, give the name and location of such institution.

Column 33. Is this Indian taxed?—An Indian is to be considered "taxed" if he or she is detached from his or her tribe and is living among white people as an individual, and as such is subject to taxation (whether he or she actually pays taxes or not); or if he or she is living with his or her tribe but has received an allotment of land, and thereby has acquired citizenship. In either of these two cases write "Yes" in this column.

An Indian on a reservation, without an allotment, or residing over unallotted territory, is considered "not taxed," and for such Indians the answer to this inquiry is "No."

Column 34. If Indian has received allotment, give year of allotment.—If the Indian has received an allotment of land, enter, in column 34, the year in which the allotment was made.

Column 35. Dwelling on his own land.—If the Indian lives on his or her own land, write "Yes" in this column; if the Indian lives elsewhere, write "No."

Column 36. Living in a dwelling or aboriginal dwelling.—If the Indian is living in a house of aboriginal design, log, frame, brick, or stone house, write "Civ." (for civilized) in this column; but if the Indian is living in a dwelling of aboriginal design, as a tent, tepee, cliff dwelling, etc., write "Abor." (for aboriginal).

INSTRUCTIONS FOR FILLING THIS SCHEDULE.

This modified form of the general schedule for population is to be used in making the enumeration of Indians, both those on reservations and those living in family groups outside of reservations.

Detached Indians living either in white or negro families outside of reservations should be enumerated on the general population schedule (Form 2-1309) as members of the families in which they are found; but detached whites or negroes living in Indian families should be enumerated on this special Indian schedule as members of the Indian families in which they are found. In other words, every family composed entirely of Indians should be reported entirely on this special schedule, and every family composed mainly of persons not Indians should be reported entirely on the general population schedule.

Spaces are provided for entries for 30 persons on each side (A and B) of the sheet, the entries for each person running twice to the page. Columns 1 to 11 are to be filled for each individual case, if applicable, according to the instructions.

Columns 1 to 3.—These columns are identical with those on the general population schedule. Fill each column, so far as the inquiry applies, in accordance with the instructions for filling the corresponding column in the general population schedule (see book of instructions), but note the following additional instructions in relation to filling columns 1 and 3, column 7, and columns 18 and 19.

Columns 1 and 2. **Violation numbers.**—If, in traversing a given territory, you are using both the general population schedule (Form 2-1309) and this schedule for Indian population, make two independent entries of numbers for these columns, one entry in each kind of schedule, so that the last number in column 1 on this schedule added to the last number in column 1 on the general population schedule will give the whole number of dwellings visited, and, likewise, the last number in column 2 on this schedule added to the last number in column 2 on the general population schedule will give the whole number of families visited and enumerated in your entire district.

Column 7. **Age at last birthday.**—Some difficulty may be met in ascertaining the exact age of Indians, as they frequently reckon their ages from notable events occurring in the history of the respective tribes. Endeavor to ascertain the years in which these notable events occurred, and with a little calculation on your part you should be able to ascertain the exact age of each Indian.

Columns 18 and 19. **Occupation.**—If the Indian is wholly self-supporting, enter his or her occupation in columns 18 and 19 in accordance with the general instructions for returning occupations. If the Indian—man, woman, or child—has no occupation and is wholly dependent on the Government for support, write "Indian Indian" in column 18. If the Indian is partly self-supporting and partly dependent upon the Government, write the occupation in columns 18 and 19, and then the letter "R" (for Indian).
